A CLASS APART

GOODBYE TO SUBSTANDARD VODKA

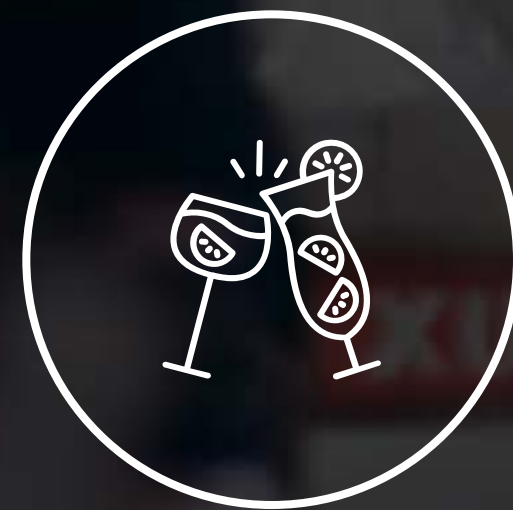

Markets are full of low quality vodka that is not worth their salt. The available Moonshines tastes bad and gives you a hangover later. A compelling and overriding need was felt by a group of four friends to create an ultra-premium vodka that the consumer would relish to the fullest. Hundreds of samples were tested to check the flavour, taste and texture to finally arrive at a most happening vodka which will cater to the connoisseur of the drink. Milae a word representing emotion and devotion will take you aback by its quality.

BY THE ELITES FOR THE ELITES

Milae is no run of the mill vodka that you can get in local outlets. Massive brainstorming with the stalwarts in the vodka business has resulted in a product that will satisfy your soul, heart and body overwhelmingly. The core concept was to create an exquisite and exclusive brand which will be unprecedented and take the market by storm. Special consideration has been given towards conceptualization of the product keeping in mind the unique needs of affluents and elites.

You won't find Milae vodka at every outlet, liquor store or clubs. The vodka is available at only limited and exclusive outlets keeping in mind its elegance over other standard vodkas. Nevertheless, we have ensured that it is present at every outlet or clubs that are visited by high and mighty personalities. Else one can directly order on the website.
